**Additional Backup Information:**

The contract is for the purchase and installation of pedestrian countdown timers. Countdown timers inform pedestrians walking through an intersection how much time they have remaining to cross the street. The Federal Highway Administration's standard is to install pedestrian countdown timers for any signalized pedestrian crossing which takes an average walker over seven seconds to cross, which equates to a street approximately 25 feet in width. Timers will be installed at approximately 4,800 crosswalks throughout the City.

The contract will be funded through the Transportation Alternatives Program (TAP) grant administered through the Texas Department of Transportation (TxDOT) and approved by Council under Ordinance No. 20170126-034. In addition to this contract being awarded, the grant will also fund the installation of pedestrian hybrid beacons at five locations and provide for the installation of accessible pedestrian signals at 27 intersections.

To meet the requirements of this funding, bids were required to be opened in Fiscal Year 2016-2017. If a contract is not awarded from the received bids, this grant funding will be forfeited. The contract will be awarded in compliance with the requirements of 49 CFR Part 26 (Disadvantaged Business Enterprise Program).
